

For critical project planning and execution, plan on **REPCON**.

Count on **REPCON** for:

- Performing substantial amounts of work on all types of units in refineries, petrochemical plants, and mid-stream and gas plants
- Unmatched industry experience
- Outstanding safety record
- Highly trained and experienced supervision
- Skilled craft workers
- Unparalleled safety personnel
- Qualified decontamination facilities
- Experienced operators

Every year Repcon performs over 3,000,000 man-hours of scheduled maintenance, turnarounds, and construction projects in petrochemical and gas processing plants, as well as refineries, all across the U.S.

Whether the job is large or small, planned or unplanned, Repcon has the expertise and manpower to help. We have worked on small projects requiring as few as twenty craft workers to enormous projects requiring up to 800 workers.

Services

- Shutdowns
- Overhauls and revamps
- Engineering constructability
- Project management
- Welding services
- Emergency repair
- Capital projects
- Towers
- Exchangers
- Piping

All types of critical process units

- HF and SF Alkylation
- Crude units
- Atmospheric distillation
- Vacuum distillation
- Distillate
- Gas oil and naphtha hydrotreater
- Reformer
- Fluid catalytic crackers (FCC)
- Sulfur recovery units (SRU)
- Coking units
- Delayed coking
- Fluid coker
- Ethylene/Olefin units
- Petrochemical units
- Fertilizer units
- Chemical units
- Gas processing facilities

Safety achievements

Repcon was the first mechanical contractor to receive OSHA's VPP STAR Mobile Contractor designation and has successfully recertified this designation three times to date. Further, Repcon is one of only a select few contractors listed in the OSHA Federal Register, where their policies and procedures have been approved for all 10 Federal Regions.
