

We fabricate it, install it, and weld it. So you don't worry about it.

With fabrication facilities located in Corpus Christi, Houston, and Baton Rouge, we provide full weld qualifications and capabilities. We can fabricate and install much of the pipe needed for your projects.

Repcon has a vast stable of ASME-certified welders. From alloy welders to safety professionals and skilled laborers, our staff can handle virtually any situation. And regardless of how demanding a project's requirements are, we work tirelessly to get the job done—and get it done safely.

Count on REPCON for:

- Unmatched industry experience
- Outstanding safety record
- Highly trained and experienced supervision
- Skilled craftsmen
- Unparalleled safety personnel
- Multiple fabrication facilities

Certifications:

- ASME "U"
- ASME "S"
- NBIC "R"

Unmatched quality

With over 30 years in the refining and chemical industry, Repcon has continuously provided the market with quality products and workmanship, due in large part to our commitment to hiring quality personnel and adherence to our established Quality System. Repcon is one of few turnaround and construction contractors that maintains a Quality System that is designed toward the requirements of the ISO-9001 standard.

Fabrication services:

- Multiple Gulf Coast fabrication shops
- ASME-certified welders
- Field verification
- Document and material control
- Full weld qualification and capability
- Detailed QA/QC process

OSHA Achievements

OSHA VPP Star Among Stars Region VI 2013

OSHA VPP Star Among Stars Region VII 2013

OSHA VPP Star Mobile Contractor Re-approval 2013

The Repcon Quality System includes:

- Quality manual (ISO-9001)
- Written quality procedures for material control
- Written quality plans specific to each project
- Quality forms, reports and accountability logs for the tracking of all phases of a project from start to finish
- Project completion KPI documentation
- ASME Quality System maintaining our "U," "S," and NBIC "R" Certifications
- Quality system procedures for archiving and maintaining completed project documentation
